CAREER OBJECTIVE

Motivated IT undergraduate with proven experience in **IoT automation**, **ASP.NET full-stack development**, and **embedded systems**. State-level recognised project winner. Certified in **CCNA**, Python, and Embedded Systems. Eager to contribute to TCS's digital transformation initiatives as a **Systems Engineer / Ninja Track fresher**, with strong adaptability, team collaboration, and willingness to relocate across India.

EDUCATION

B.Tech. in Information Technology — Sasi Institute of Technology & Engineering, Tadepalligudem CGPA: 7.3 / 10	2024 – 2027
Diploma in Electronics & Communication Engineering — Sri Vasavi Engineering College Percentage: 63%	2020 – 2023
SSC — Sasi English Medium School, Tadepalligudem GPA: 9.5 / 10	2019 – 2020

TECHNICAL SKILLS

Languages	Python, C, Java
Web & DB	ASP.NET (MVC, Razor Pages), HTML, CSS, SQL Server, MySQL, REST APIs
IoT & Embedded	NodeMCU (ESP8266), Arduino, RFID RC522, IR Sensors, Relay Modules, MQTT
Tools	Git, GitHub, VS Code, Visual Studio, IIS, Postman, Linux CLI
Core Concepts	Data Structures, OOP, SDLC, MVC Architecture, TCP/IP, Agile Basics, CCNA

INTERNSHIP EXPERIENCE

ASP.NET Web Developer Intern · Stepping Stone, Tadepalligudem <i>Full-stack development — ASP.NET MVC, SQL Server, IIS — 6 months</i>	2023
• Built and deployed 3+ production web applications using ASP.NET MVC, Razor Pages, and SQL Server on IIS. • Implemented role-based user authentication and CRUD modules via Entity Framework; resolved 15+ bugs. • Collaborated in an Agile team of 4 with weekly sprint reviews, improving on-time delivery by 20%.	

PROJECTS

IoT-Based Smart Door Unlock System <i>NodeMCU (ESP8266), RFID RC522, IR Sensor, Relay Module, Web Interface</i>	2024
• State-level competition finalist — contactless RFID and remote-unlock access control with real-time mobile alerts. • Implemented full audit logging of every unlock event for security compliance.	
Plant Dryness Detection System using IoT (v1.2) <i>NodeMCU, Soil Moisture Sensor, Arduino IDE, MQTT, Mobile Dashboard</i>	2024
• Automated irrigation across 4+ sensor nodes, reducing manual monitoring effort by 60%. • Cut water wastage by an estimated 30% via real-time threshold-based control logic.	

CERTIFICATIONS

CCNA: Introduction to Networks — Cisco Networking Academy	2024–2025
AICTE Embedded Virtual Lab Training — Eduskills	2024
ASP.NET Web Development — Stepping Stone	2023
Python Programming — Lions Club	2023

ACHIEVEMENTS & ACTIVITIES

- **State-level finalist** — IoT Smart Door Lock, AP state technical competition (2024).
- Conducted **digital literacy sessions for 50+ members** as Lions Club volunteer.
- Represented IT dept. in **2 technical paper presentations** at college fests.
- **Willing to relocate** anywhere in India; open to all TCS practice units and technologies.
